ii. **INTERVIEW SUMMARY UNDER 37 C.F.R. §1.133 AND MPEP §713.04**

A voicemail was left by Examiner Hien N. Nguyen on **February 21, 2006** regarding the Office Action mailed **November 29, 2005**. Specifically, the Examiner stated that his objection to the **Drawings** under **37 C.F.R. §1.83(a)** could be overcome by adding **FIGS. 6A** and **6B** and supporting text to the present application. **FIGS. 6A** and **6B** were previously faxed to the Examiner by the Applicant on **February 01, 2006**. In a subsequent phone call from the Examiner, the Examiner stated that he would study the faxed materials to determine which figures could be included the application to overcome the objection to the **Drawings**. In the **February 21, 2006** voicemail, **FIGS. 6A** and **6B** and supporting text were approved by Examiner. The Applicant wishes to sincerely thank the Examiner for his time and attention in this case.

iii. **ARGUMENT**

a. **Objection to the Drawings under 37 C.F.R. §1.83(a)**

The Applicant respectfully submits that the addition of **FIG. 6A** and **FIG. 6B** and supporting text overcomes the Examiners objection to the **Drawings** for failing to show every feature of the claimed invention. Therefore, the elements recited in independent **Claim 1** are now clearly depicted in **FIGS. 6A** and **6B**. Consequently, **Claim 1** and all claims depending therefrom are patentably distinct, non-obvious, and in condition for allowance.
